My life since high school has been a pleasant journey. I taught sophomore English as a high school teacher and enjoyed myself immensely. I taught so long that some of my later students were children of my earlier students. Go Figure After 37 years I retired and had even more fun when my wife Betsy and I became practical shooters. Before COVID we shot every Wednesday and most Sundays in the warm months. We have made many friends who range in age from their twenties to their seventies. Betsy

We spend our early falls in Canada and some part of our winters in Florida. In Canada, we go to Fundy Park which claims to have the highest tides in the world. In Florida we stay in ST. Augustine, which claims to be the oldest city in the US. We noisily claim the oldest place is Plymouth, MA. In both places they just love our New England accents. I'm on the cusp of my eighties and still going strong. I still do woodworking and carpentry for fun. I can't believe how busy our lives are.

I attended Boston University, New York University & Columbia. I got married & moved to NY where I worked in art galleries & for a television show. I got divorced & lost time to alcohol & drug use. Thankfully, I stopped in 1972 & went to grad school. I got married again to a nice guy, had one wonderful daughter rather late in life (she is now 29), & have worked as a psychotherapist ever since. I currently am a Social Worker in private practice

specializing in addictions & family. We enjoy our life here in New York City. We bought & fixed up a small cottage on the island of Nevis. I try to spend as much time as I can there & when I stop working, I plan to live there half the year because my main hobby is gardening.
